

## Transit Cleaning & Disinfecting

Grow ridership by taking the health and welfare of your riders to another level.

### Enhance Your Rider Experience with Hallcon

While other cleaning companies focus on multiple industries, Hallcon focuses solely on the needs of the transportation industry.

We offer a unique combination of transit industry knowledge and cleaning expertise that has redefined the rider experience.

Hallcon sets a new standard for the health and welfare of riders by adhering to stringent quality standards and deploying streamlined cleaning service processes and technology that prioritize riders' health, hygiene, and happiness.

#### Elevate Your Brand

A clean fleet and transit station is the ultimate expression of your organization's dedication to providing safe and clean transportation options for your riders.

#### Grow Ridership

The power of a clean transit environment is immense, instilling confidence and satisfaction in riders and is a driving force for boosting ridership.

#### Create a Healthy Environment

We have engineered specialized disinfection programs tailored to various transit vehicle and facility types, aiming to protect and enhance the well-being and safety of all riders.

Hallcon cleans over **1 million railcars, buses, transit facilities, stations, and vehicles annually.**
