Hallcon's Vision for Safer, Smarter Campus Transportation

Today, more than ever, universities need more than just basic transportation services — they need a strategic partner dedicated to continually advancing their safety, efficiency, and sustainability.

Do not accept the status quo.

Most transportation is outdated. Inefficient. Low value. It's been done the same way for years.

Hallcon has changed the game. We've redefined what you should expect from your transportation partner.

Hallcon has introduced groundbreaking technology integration and AI-powered data analytics that create unmatched visibility, enhance performance, benchmark transportation program health, and solve problems.

How We Will Transform Your Campus

Prioritize Campus Safety

When selecting a university, campus safety is a priority for prospective students, employees, and their families. Hallcon views rider safety as our highest priority when shuttling students, faculty, staff, and visitors from parking lots, dorms, buildings, athletic facilities, and more.

Achieve Your Sustainability Goals

Accelerate your sustainability goals with Hallcon's industry-leading EV expertise. Hallcon helps universities transition to zero-emission shuttle programs, guiding them through the electrification process to create a healthy and sustainable campus environment.

Deliver Exceptional Transportation Experiences

Hallcon's innovative, data-driven solutions transform campus transportation into a seamless, rewarding journey for every rider. From ensuring on-time arrivals to promoting safety and comfort, we create reliable mobility for your entire campus commute.

Expand Campus Accessibility

A university shuttle program should ensure reliable and equal access to education and campus resources for students, staff, faculty, and visitors, regardless of physical ability. Hallcon makes this happen through innovative technology integration and data analytics that inform usage and on-demand riding trends.

Reduce the Demand for Parking

Hallcon's university shuttle solutions provide safe and reliable shuttle transportation that reduces the need for parking by decreasing the number of vehicles on campus. We believe that shuttle service should surpass our clients' expectations with exceptional on-time performance, convenience, and comfort.

Increase Employee Productivity

Say goodbye to the stress of daily commutes and hello to enhanced productivity with Hallcon's commuter shuttle programs. Students, faculty, and staff can reclaim their commuting time, get work done along the way, and arrive on campus refreshed and focused.

Shuttles

At Hallcon, we innovate shuttle programs through our AI-driven data analytics, robust technology integration, and unique business intelligence platform.

Welcome to the next level of campus shuttle services — where efficiency meets innovation.

Parking Shuttles

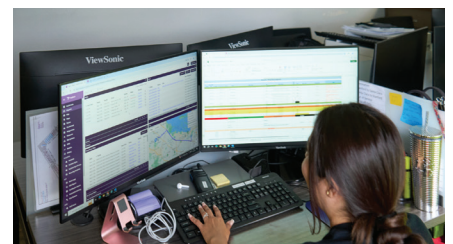

Alleviate the demand for parking spaces and reduce parking challenges with Hallcon's efficient shuttles. We safely transport students, faculty, staff, and visitors between remote lots and key campus locations, ensuring every trip remains quick, safe, and convenient.

Commuter Transportation

Hallcon's Commuter Shuttles transform daily commutes into productive, stress-free experiences, helping faculty and staff arrive on campus stress-free and on time. By minimizing congestion, decreasing parking demand, and lowering emissions, our shuttles promote a connected campus while reducing the number of cars onsite.

Last Mile Shuttles

Enhance your campus's connectivity by integrating it with the local public transit network. Last-mile shuttles provide a seamless travel solution, improving accessibility for students, faculty, staff, and visitors navigating to and from your campus throughout the region.

ADA Shuttles

Hallcon's ADA Shuttle Program ensures seamless travel for everyone across your campus. Equipped with accessible vehicles and innovative rider technology, we deliver a safe, inclusive, and dependable transportation solution customized to meet your university's requirements.

On-Demand Shuttles

Hallcon leads the way in on-demand transportation, providing on-demand trips both on campus and within the surrounding community. Designed to enhance student life, these services offer a flexible and efficient transportation option for modern campus mobility.

Command Center

Experience exceptional 24/7 oversight of your transportation systems with Hallcon's Command Center services. By combining cutting-edge technology with expert management, we ensure seamless operations, enabling students and staff to focus on education and research.

Electric Vehicle (EV) Infrastructure and Operations

Expertise for Every Mile of Your EV Journey

Hallcon delivers unparalleled expertise in turnkey electric vehicle (EV) infrastructure development, charge management, operations, and maintenance for comprehensive management of your electric fleet. We deliver end-to-end EV infrastructure and maintenance to support your transition to an electric fleet and enable critical technology and analytics to optimize operations, charging, and infrastructure reliability.

What You Should Expect From Your EV Partner

With a suite of comprehensive EV and EV infrastructure service offerings, Hallcon's expertise is second to none.

Infrastructure Build

We oversee the entire construction process, managing all aspects of the build or upgrade. We provide exceptional proficiency in design, construction and optimize high-capacity EV infrastructure, tailored to fit the specific requirements of your program.

EV Operations

Optimize your fleet's performance, ensuring maximum efficiency through strategic coordination of charging schedules, load management, and vehicle duty cycles. Our team focuses on developing, implementing, and fine-tuning EV operations and charging infrastructure to ensure peak efficiency and return on your EV investments.

Engineering & Development

Our team of experts will guide you through the entire process of developing your electric vehicle program and infrastructure. We offer a full range of turnkey services, from selecting and designing the perfect site, engineering your charging infrastructure, installing chargers, and acquiring vehicles to support your shuttle program.

Charge Management & Analytics

We oversee the initiation, launch, and ongoing management of your EV infrastructure, from start to finish. Our services include implementing EV charging management programs, remote monitoring, and sophisticated analytics to increase energy efficiency and maximize the return on your investment.

Transportation Cleaning

While other cleaning companies focus on multiple industries, Hallcon focuses solely on the needs of the transportation industry.

We offer a unique combination of transportation industry knowledge and cleaning expertise that has redefined rider experience.

Hallcon sets a new standard for the health and welfare of riders by adhering to stringent quality standards and deploying streamlined cleaning service processes and technology that prioritize riders' health, hygiene, and happiness.

Elevate Your Brand

We understand that the cleanliness of your facilities and vehicles are a statement about your university's integrity. A clean fleet and transit station is the ultimate expression of your school's dedication to providing safe and clean transportation options for your passengers. Elevate your university brand with Hallcon's customized cleaning solutions, transcending traditional expectations with our unwavering commitment to quality.

Grow Ridership

When riders experience the pristine environments created by our expert cleaning teams, they want to ride with us again and again. The power of a clean transit environment is immense, instilling confidence and satisfaction in riders, and is a driving force for boosting ridership.

Create a Healthy Environment

Hallcon's team of disinfection specialists executes comprehensive disinfecting protocols, actively managing potential health risks. We have crafted specialized disinfection programs tailored to various types of transit vehicles and facilities, aiming to protect and enhance the well-being and safety of all riders. Our approach includes tailored disinfecting solutions that meet the unique needs of your system and your passengers' health requirements.

CASE STUDY

Launching an On-Demand Campus Shuttle Service in Just 30 Days

One of the most prestigious universities in North America faced the daunting challenge of launching their campus' first on-demand campus transportation program from scratch in under 30 days.

This shuttle service, designed to accommodate riders under the Americans with Disabilities Act (ADA), was envisioned to evolve into a comprehensive and scalable transportation solution for the entire university community.

Hallcon's team quickly mobilized a fleet of electric vehicles and hired professional drivers, ensuring a swift transition in time for the fall semester. The team introduced a cutting-edge ride request mobile application, shifting from a manual, paper-based system to a highly efficient, digital operation.

As a result, Hallcon deployed this critical service within just 30 days, witnessing an 800% surge in growth during the initial 90 days while ensuring 100% reliability and no ride cancellations.

800% 100%

Surge in Growth

Reliability

“The Hallcon team has made an invaluable positive impact on my life.”

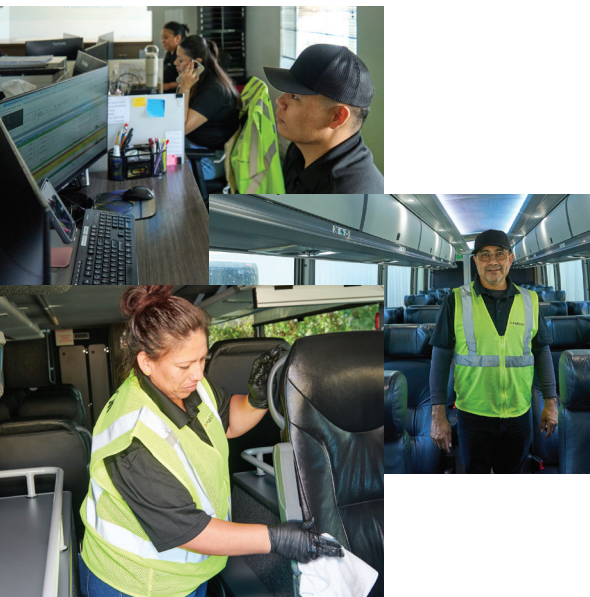

Welcome to Hallcon.

Welcome to a Higher Standard.

In a world that often settles for the status quo, Hallcon stands out by relentlessly pursuing innovation, excellence, and unmatched service. Our commitment to pushing the boundaries of what's possible sets us apart from the rest.

If you've been settling for less, it's time to change your perspective. With Hallcon, you're not just choosing a service provider; you're choosing a partner who's committed to delivering excellence beyond your expectations.

We provide essential transportation services, including:

-  Shuttles
-  Integrated Command Centers
-  Electric Vehicle Infrastructure & Operations
-  Technology Integration & Data Analytics
-  Maintenance Services
-  Facility & Vehicle Cleaning
-  Transportation Specialty Staffing
-  Rider Experience Enhancement

Why Choose Hallcon?

At Hallcon, we innovate, evolve, and optimize not just our services, but the very expectations of our industry. The bare minimum isn't good enough for us, and it shouldn't be for you either. In a landscape where many are content with the status quo, we think you should expect more—more quality, more innovation, and more value.

Innovation

We challenge the usual, bringing forward-thinking solutions and cutting-edge analytics that transform insights into actionable, strategic advantages for our clients.

Experience

With Hallcon, it's not just about the service. It's about elevating your entire experience through value-added offerings that enhance the rider experience, transforming it from mundane to extraordinary.

Future-Driven

We believe in delivering not just what you want now, but also what you'll need tomorrow. Our services include leading-edge, sustainable transportation solutions that save you money and ensure you're always ahead of the curve.

Excellence

Accepting mediocrity is not in our DNA. We're in the business of changing the game, setting new standards, and ensuring that what's on your wish list for tomorrow becomes your reality today.
